THE HOMEOWNER IS RESPONSIBLE FOR OBTAINING ALL NECESSARY PERMITS BY THE TOWN OF JUPITER BUILDING AND ZONING DEPARTMENT(S)

1. The ACC does not pass upon the structural integrity, engineering feasibility or safety of the proposed activity or its compliance with municipal rules and regulations. ACC review is primarily for the purpose of aesthetic appearance and ensuring that said activity does not increase the maintenance costs of the Association. Nor does the ACC or the Association guarantee that applicant is not in violation of any easements on the said property.
2. Owner agrees to be fully responsible for any damage to Association common property or adjacent property(s) caused by the construction, maintenance, or operation of the proposed activity. Access to the areas of construction is only allowed through Owner’s property. In the event of failure by owner to pay all costs incurred by the Association or Adjacent property(s) within 30 days of receipt of written notice by certified mail, the Association may cause a lien for such costs to be placed upon the above-described property which shall include reasonable attorney’s fees incurred by the Association.
3. The Association has the authority to consider any Owner who does not follow the procedures and specifications in violation of the documents, which may allow the Association to proceed with available legal remedies. These include seeking injunctive relief, asking the Court to force this person to make the necessary procedures which were not followed and/or seeking to levy a fine against the lot. The Association will remain strict on these specifications to ensure a professional looking community.
4. Owner shall return the Notice of Completion, for each project, to the Association Office within 14 Days upon the completion of work.
5. Owner shall hold and save the Association harmless from all claims or liability for personal or property damage resulting from the construction, operation or maintenance of the proposed activity.
6. Owner shall restore all the landscaping and irrigation system, which is maintained by the Association, to the same condition that existed prior to commencement of the subject activity.
7. All communications regarding this application shall be by regular mail to the homeowners mailing address listed above.
8. The project must begin within 1 month and must be completed within 3 months unless otherwise specified. If conditions are not met, a new application must be submitted.
9. **If your request(s) is not approved by the ACC, it may be appealed to the Board for their consideration and approval.**

The undersigned owner(s) of the described property hereby apply and agree to abide by the above conditions for all attached requested projects:

Owner’s Signature: _____ Date: _____

Accordion Shutter

- 4.25" Slats of Extruded Aluminum in White, Ivory, Bronze or Beige, - 062 thick
- 3.35" Top and Bottom tracks of Extruded Aluminum in White, Beige, Bronze or Ivory
- Manual operation with heavy duty stainless steel for wheel carriages in top of track
- Locking by ½" Solid Aluminum Vertical Slide rods and by T. Handle Lock from Outside
- Stacking Requirements are 1.2" per ft of opening width & can be all left, all right, even divide
- Installation clearance is 3.35" top & stacking required @ sides with minimum of 3" edge

Roll Up Shutters

- 2" Slats of Extruded Aluminum in White, Ivory, Bronze or Beige
- 3" Side tracks of Aluminum in White, Beige, Bronze or Ivory
- 2.5" Hex roller tube of Aluminum
- Housing Shapes are wall, ceiling or custom and start at 8" in size Operation is by manual crank and gear with optional inside or outside control with removable handle, or motorized with optional O/R
- Installation clearance is housing size at top and 4" each side

Hurricane Panels

Panels shield against any and all flying debris caused by high velocity winds

- Aluminum Hurricane Panels are acceptable in .040, .050, .060 and white .050
- Metal Hurricane Panels / Solid Panels / Corrugated for added stability
 - Affixed to the outside of building using a pre-installed track or fastener
 - Heavy and installation is a bit labor intensive
- Lexan Hurricane Panels
 - As strong as the metal panels when installed properly
 - Clear panels allow owner to see out as well as allowing light in

Bahama Shutters

- Durable and highly resistant to flying debris
- Easy to retract and secure to your window without assistance
